EDUCATION

Hunter College, City University of New York (CUNY), New York NY
BA, Computer Science Major, Media Studies Minor, Business Certificate

PROFESSIONAL EXPERIENCE & LEADERSHIP

Career Group Companies, FIFA World Cup 2026, MetLife Stadium/New York July 2026
Vip Hospitality Event Supervisor

- Supervised waitstaff serving high-profile and VIP guests in a dedicated hospitality tent at the FIFA World Cup, as part of a four-person supervisory team overseeing 100+ staff
- Managed floor operations and venue presentation, ensuring food service and the room stayed in top condition throughout high-volume match-day service
- Coordinated with kitchen and floor teams to deliver seamless VIP service under tight, high-pressure timelines

Hunter College, New York, NY September 2024 – May 2026
African Student Union President

- Managed a 16-member executive team, delegating responsibilities to drive organizational growth and sustain high-performance operations
- Produced large-scale campus events with 100+ attendees, including building a fashion show from the ground up: overseeing logistics, talent, and production
- Partnered with external businesses and brands to develop culturally enriching programming and new experiences for the student body

Scholars for Educational Opportunity (SEO), New York, NY November 2022 – Present
Application Reader

- Reviewed 200+ perspective scholar applications and selected most qualified applicants to interview to determine best fit for the SEO program
- Collaborated in weekly team meeting to discuss student trends; assess evaluation questions for improvement areas

Summer Site Assistant June 2022 – August 2022

- Facilitated daily morning COVID-19 check-in process; helped implement safety protocols for incoming Scholars
- Organized and prepared curriculum materials for program staff, instructors, and Scholars
- Observed in-person classrooms and track participation to share with grade level teams
- Provided technological support to Scholars, full-time Scholars staff, part-time instructors and tutors as needed

Salesforce, San Francisco, CA June 2024 – August 2024
Einstein AI Intern

- Developed and maintained unit tests to improve software reliability by 20% and ensured maintainability across key systems
- Collaborated with co-intern to successfully achieve project objectives and enhance code quality through the implementation of best practices
- Deployed and managed a monitoring system on Amazon Web Services (AWS) to track idle endpoints left by developers post-testing, enabling identification and optimization of underutilized resources
